## INTUITIVE NAVIGATION

A home page dashboard view allows you to see all the relevant information related to that specific company at a glance.

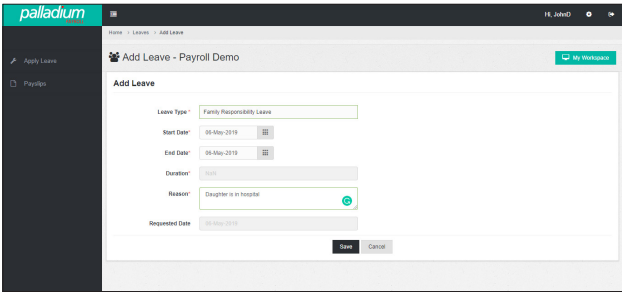

## IMPORT TIMESHEETS

Save time and reduce data capturing errors by importing timesheets that are either created manually or generated from most time and attendance systems.

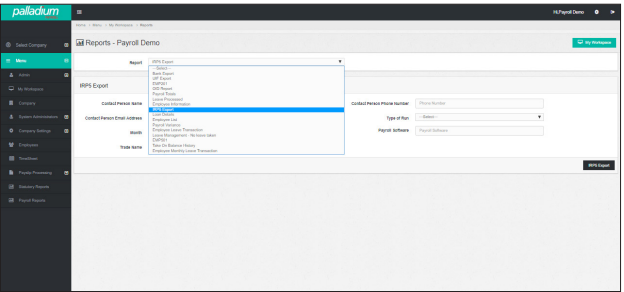

## EMPLOYEE SELF-SERVICE PORTAL

Remove basic Payroll Admin queries by allowing employees to view or print payslips or IRP5's, as well as apply for leave through the mobile-friendly Employee Self-Service Portal. All at no additional charge.

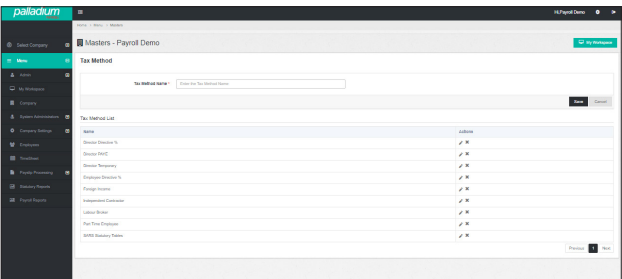

## STATUTORY SUBMISSION REPORTS

Print all the necessary statutory reports as well as create your electronic file submissions. This includes the EMP201, EMP501, and IRP5 certificates and interim and annual reconciliation from the EMP501 summary.

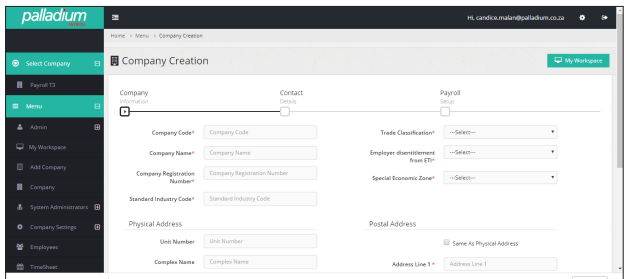

## MULTIPLE TAX METHODS

Includes multiple tax methods that may be applied to salaries, including SARS Average Method, Part-time Employee, Foreign Income, Labour Broker, Director PAYE, Director Directive %, Employee Directive %, Independent Contractor and Temporary Director.

## COMPLETELY SCALABLE

The solution is completely scalable, allowing you to add an unlimited number of companies and employees within one group structure with user access rights per company and role. A single-sign-on function allows users to move between companies without having to constantly log in and out.
